

COVID-Safe Practices Subcommittees

Objective

COVID-Safe Practices subcommittees will develop COVID-Safe Practices (“CSPs”) that businesses in various industry sectors will be required to implement in order to minimize the risk of COVID-19 transmission among customers and employees. CSPs will be provided to sectors currently deemed “essential” as well as those deemed “nonessential” in anticipation of permission to reopen per the state’s Public Health Order. CSPs will play a key role in minimizing the spread of COVID-19 and will also give New Mexicans the confidence to return to work and to retail environments as the economy reopens.
