

DP Road PHASE II

Roadway and Utility Improvement Project

BUSINESS & PROPERTY OWNER ENGAGEMENT

In January 2023, the DP Road Phase II Project (Fire Station #2 to the TA-21 Gate) was advertised for bids. Unfortunately, the bid received was significantly higher than the project budget and the County chose to cancel that bid. Over the past several months, the County has evaluated the project design and identified ways that will reduce the project costs. These include changing the parking configuration on the southside to on-street parallel parking with a separate parking lot and changing the gravity sewer system to a low-pressure sewer system. The project redesign is scheduled for completion by the end of December 2023. With a successful bid, construction is expected to start around March 2024 with the project completion by December 2024. The Project Team is available to meet in person or virtually with individual businesses and property owners to discuss these project changes.

Ways to meet with the Project Team:

IN PERSON

Representatives of the Project Team will be available to visit individual businesses/property owners in person during the weeks of November 13 and November 27, 2023. To schedule a time for a visit, please contact Keith Wilson via the email or phone number below.

By PHONE or VIRTUALLY

Representatives of the Project Team will be available to answer questions by phone or meet via the Microsoft Teams virtual meeting platform during the weeks of November 13 and November 27, 2023. To schedule a time for a phone call or virtual visit, please contact Keith Wilson via the email or phone number below.

SAVE THE DATE (December 7 @ 5:30PM)

The project is scheduled to be presented to the County Transportation Board at the December 7 Meeting. This will provide an additional opportunity for you to ask questions and provide input on the project.
