## NEED STATEMENT

The County is soliciting proposals for ON-CALL SERVICES for Utility Power Distribution Electrical Engineering by qualified New Mexico Professional Engineering Offerors.

## BACKGROUND

The Incorporated County of Los Alamos ("County") is situated at the foot of the Jemez Mountains on the Pajarito Plateau with an elevation ranging from 6,200 feet to 9,200 feet. The services will be performed in the Los Alamos town site, community in White Rock and the power line up to the Pajarito Ski Hill.

The engineering services required consist of 15 KV utility power distribution electrical engineering design and analysis and limited 115KV substation design. The primary work includes: system planning studies (SPS); distribution modeling and analysis (DMA); short-circuit analysis (SCA) studies; over-current device protection (OCDP) and coordination analysis; minor 115KV - 15KV substation design upgrades (SUBS); 15KV metal enclosed station commissioning (MES); and development of overhead and underground construction and retirement staking sheets (CSS) based on the Rural Utility Services (RUS) construction standards. The engineering services will be scheduled throughout the year but subject to the annual budget construction project funds appropriated.

The County operates a 12.47KV distribution system in White Rock and a 13.2KV distribution system in Los Alamos; both systems are 3 phase 4 wire WYE. The County's distribution system is approximately 67% underground (UG) and 33% overhead (OH). The three-phase primary UG feeders are mainly 600 amp utilizing 500 mcm alum electrical power requirement (EPR) cable. The 200-amp primary UG system is mainly 1/0 alum with some 4/0 alum three phase primary segments. The OH primary system is mainly CWC with extensive 2 wire phase-to-phase transformer feed configurations. New feeders are constructed with standard Aluminum Conductor Steel Reinforced (ACSR) conductor; 477 for critical OH feeder segments and varying sizes for the remaining feeder segments including 4/0, #2 and #4 ACSR.

The County has one 115KV to 12.47KV / 7.2KV substation in White Rock with dual substation 7.5 Mega Volt Amp (MVA) transformers and dual 15KV Metal Enclosed Switchgears (MES). In Los Alamos, the Townsite substation consists of a 13.2KV – 7.62KV MES with no substation transformer. A second, Los Alamos Switch Station (LASS) substation is tentatively scheduled to be commissioned and energized in 2023, and also does not contain a substation transformer. The Townsite and LASS substations will be

powered by the Los Alamos National Laboratory (LANL) TA-3 Substation where the 30/56 MVA transformers reside.

Two distinct communities, Los Alamos Town site and White Rock, each with its own visitor center, are home to ~19,000 people. Los Alamos is mostly known for the historic accomplishments of its largest employer, Los Alamos National Laboratory, and continues to gain notice for its vast scenic assets and recreational opportunities.

Visit the Los Alamos County website ([www.losalamosnm.us](http://www.losalamosnm.us)) and the tourism website ([www.visitlosalamos.org](http://www.visitlosalamos.org)) for more information.

### **SCOPE OF SERVICES (or WORK)**

1. The successful Offeror shall have NM Professional Electrical Engineering License and extensive experience in 115KV electrical transmission and 15KV distribution engineering. Minor engineering design work may expand into civil or structural engineering for small electrical substation upgrade projects which may require new equipment concrete foundations.
2. The successful Offeror shall have extensive experience in distribution system planning and modeling 15KV electrical distribution systems in Milsoft's Windmil software. The County will as required provide its Windmil database electrical distribution model to the Offeror. Then, the Offeror shall update the electrical model accordingly for voltage drop analysis, distribution feeder reconfigurations, or long-range load plan. Last, the Offeror shall provide the revised model database to the County as part of the submittals.
3. The successful Offeror shall have extensive experience in the development of short-circuit analysis studies, over-current protection and coordination studies utilizing Milsoft's Light Table Software. Similarly, the County will as required provide the Windmil database to the Offeror. Then, the Offeror shall update the electrical model accordingly with the new Over-Current Protection Devices (OCPD) devices and settings. Last, the Offeror shall provide the revised model database to the County as part of the submittals.
4. The successful Offeror shall have the ability to develop and upload the protection files from the OCPD studies onto the County's SEL 787 and SEL 751 relays. The SEL relays are utilized in the County's station switchgear for bus differential and back-up overcurrent protection to GE 750/760 substation feeder relays. The County's feeder protection consists of ABB PCD 2000 three phase reclosers and S&C SME or SMU Type E fuses. The feeder single phase protection consists of McGraw Edison Type L reclosers and Kearney Type T fuses.
5. The successful Offeror shall have the ability to design arc-flash substation protection utilizing the SEL suite of relays for 15KV metal enclosed station switchgears in White Rock and Los Alamos.
6. The successful Offeror shall have extensive experience preparing CSS for 15KV overhead and underground distribution power lines. Design work for the CSS shall be based on the most recent RUS construction standards.
7. The successful Offeror shall have extensive experience in the design of 115KV to 15KV electrical substations where the 15KV side is a metal enclosed switchgear station and not open bus. Typical 115KV side protection is candle stick circuit switcher.
8. The successful Offeror shall have extensive experience in the commissioning of new electrical substations where the 15KV side is a metal enclosed switchgear station and not 15KV "open bus".

### **CONTRACTOR QUALIFICATIONS**

The Contractor shall be a qualified NM Electrical Professional Engineer with extensive experience in 115KV electrical transmission and 15KV distribution engineering; 115KV - 15KV substation design and commissioning; 15KV distribution system planning; and 15KV construction design of power distribution in accordance to RUS Standards.

**Worker Safety;** Drug and Alcohol Testing. Contractor may be required to implement and maintain a drug and alcohol testing program meeting or exceeding local County Code requirements and State and Federal Department of Transportation rules and regulations. The need will be determined on a Task Order basis, by County Project Manager. Contractor shall provide to County a copy of its current drug and alcohol policy and any amendments to the County's Project Manager upon request.

### **Task Order Process**

1. All Services shall be performed by Task Order. County shall make reasonable efforts to generally provide at least two (2) weeks' notice to Contractor for the Services required under any Task Order. The Task Order shall be priced by Contractor on a regular five (5) day schedule, Monday through Friday, forty (40) hours per week, unless otherwise agreed by both Parties.
2. County's Project Manager shall request the Services of Contractor for individual or multiple projects through a written Request for Quote(s). Each Request for Quote(s) shall identify the services required, generally describe the project and provide a timeline for Project completion. A Request for Quote(s) may be as detailed as County finds necessary to assure appropriate oversight of the services to be performed. A sample Task Order is provided as Exhibit G.
3. Upon the County's issuance of a Request for Quote(s), Contractor shall provide a written, itemized Quote for the task(s), and/or services requested by Project Manager ("Quote"). The Quote shall provide, in writing, the billing classification and hourly rate to complete the Task Order. Cost shall conform to the rates proposed by Contractor and agreed to by County as a not-to-exceed fixed price. Any progress billing and payment shall be provided by Contractor in the Quote and is subject to approval by Project Manager. Preparation and work performed to prepare Quotes shall be considered incidental to this Agreement and not compensable.
4. If Contractor's Quote is signed by Contractor and acceptable to County, Project Manager shall provide Contractor with written approval ("Approved Task Order"). After receipt of the Approved Task Order, County and Contractor shall schedule the Services. Contractor is authorized to begin work on any particular phase / task only upon receipt of the Approved Task Order. The Contractor will be required to begin using the requirements detailed in the Task Order and move through the various design phases. Task Orders shall be numbered sequentially (TO1, TO2, etc.)
5. If the Contractor is unable to provide, in the determination of the Project Manager, the full scope of the Proposed Task Order work, the Project Manager may alter, change, modify, or cancel the Request for Quote before work commences. The Approved Task Order shall be adjusted only upon the written agreement of the County after a finding that a change to the Task Order is necessary and justifiable. Contractor's failure to reasonably estimate the cost of completing the task in the first instance shall not be a justification for modifying the Approved Task Order. Modifications to the maximum amount for the Approved Task Order shall be agreed upon by County prior to Contractor continuing the performance of Services. Modifications shall follow the previous nomenclature with letters following (TO1A, TO1B, etc.) Unanticipated events, such as natural phenomena, shall not form the basis for additional compensation to Contractor.
6. Contractor must take any and all actions to timely complete the work agreed to in the Approved Task Order, including but not limited to subcontracting the work. Costs for any Sub-contractors are the responsibility of the Contractor.
7. The Agreement will not provide Contractor with a guarantee that County will accept Contractor's Quotes and award Contractor Approved Task Orders. County reserves the right, at its sole discretion, to separately quote or bid any project. County's issuance of a written Request for Quote(s) is not a guarantee of work to Contractor. County, at its sole discretion, shall determine when Contractor's Services are required and shall issue written Request for Quote(s) as needed.
8. The amount payable by County shall in every instance be based on time actually spent and services satisfactorily rendered or as the percentage at the payment schedule applicable to the phase, in an amount not to exceed the maximum amount shown on the approved Task Order by phase. "Satisfactorily rendered" includes but is not limited to items such as timeliness of the various deliverables, completeness, re-work needed to bring the submitted packages up to desired completeness, etc.
9. Contractor may be required to attend Council and other public meetings. The County shall identify the meetings and the Contractor shall include the costs for attendance in the maximum amount of the Task Order, based on the hourly rates agreed to. In the event that it is determined after

issuance of the Task Order that meeting attendance is required, County shall inform Contractor of such, and Contractor shall bill the County, accordingly, based on the hourly rates as agreed.

## **PROPOSAL REVIEW AND EVALUATION**

Proposals shall be handled so as to prevent disclosure of the identity of any Offeror or the contents of any proposal to competing Offerors during the process of negotiation.

After the RFP has closed, Procurement Division staff prepares a register of proposals containing the name of each Offeror, the number of modifications received, if any, and a description sufficient to identify the item offered. The register of proposals is open to public inspection only after contract award. Procurement Division staff delivers the RFP submittals to the Evaluation Committee Chairperson. The Evaluation Committee reviews and evaluates the submittals. Interviews are only for the purpose of clarification, and may be used for adjusting the final score. Discussions may be conducted with responsible offerors who submit proposals determined to be reasonably likely to be selected for award for the purpose of clarification to ensure full understanding and conformation with solicitation requirements for the purpose of obtaining best and final offers.

The total evaluation score with or without the cost factor of each proposal received from a qualifying vendor shall be multiplied by 1.05. After application of the factor, the contract shall be awarded to the highest score. If one or more scores are equal, the same procedure shall be followed with respect to the next category of offerors listed, and the next, until an offer qualifies for award. The priority of categories of offers is as follows:(1) Local business; (2) Resident business.

The Evaluation Committee Chairperson forwards the final evaluation results to the Procurement Division. Award shall be made to the responsible Offeror whose proposal is determined in writing by the Evaluation Committee to be the most advantageous to the County, taking into consideration the evaluation criteria set forth in the solicitation.

## **AWARD OF SOLICITATION**

Following award of the solicitation by County Council, the successful Offeror will be required to execute a contract with County in accordance with the terms and conditions set forth in the Services Agreement, a sample of which is attached as Exhibit "A." Offeror may identify any exception or other requirements to the terms and provisions in the Services Agreement, along with proposed alternative language addressing the exception; County may, but is not required to, negotiate changes in contract terms and provisions. The Services Agreement as finally agreed upon must be in form and content acceptable to County.

## **OBLIGATIONS OF FEDERAL CONTRACTORS AND SUBCONTRACTORS; EQUAL OPPORTUNITY CLAUSES**

Contractors and Subcontractor shall abide by the requirements of 41 CFR §§ 60-1.4, 60- 300.5 and 60-741. These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity, or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability.
